Introduction to Math for Political Scientists

J. Alexander Branham & Megan Moeller

Fall 2015

Let's start real slow. . .

So we all know that

$$2 + 2 = 4$$

But addition and subtraction have some cool rules

Properties of Addition and subtraction

- Communiciative:
  - $a \pm b = b \pm a$
- Associative
  - $(a \pm b) \pm c = a \pm (b \pm c)$
